

## **OUR PURPOSE AND VISION**

MacArthur Green believe that the best science and methods, combined with clear understanding of the practical requirements of developments, should be used to achieve the best outcome for sustainable development.

MacArthur Green's purpose is to deliver consistently high quality consultancy services in the fields of ecology, ornithology and hydrology to public, private and charitable sectors. Our vision is to be recognised as best in the market in these areas and respected for our work, particularly within the areas of research, guidance and innovation.

## **OUR VALUES**

- 1) Deliver a consistently high-quality professional service and ensure that a pro-active and helpful approach is adopted.
- 2) Ensure a high standard of scientific robustness in our work.
- 3) Support our colleagues in their everyday work and promote opportunities for career development.
- 4) Maintain our integrity at all times and communicate openly.
- 5) Further best practice and knowledge in the field of ecology, ornithology and hydrology.
- 6) Ensure that health and safety is an integral part of our day to day behaviour and operations.
- 7) Ensure that our actions contribute to the conservation and sustainable development of the natural environment.
