

GIS Technician

MacArthur Green is dedicated to helping projects with important benefits to people and nature succeed, and creating a positive environmental legacy through our work.

Our team combines a strong mix of scientific, commercial and regulatory knowledge and experience. This ensures high quality and pragmatic service and advice is consistently delivered. We create a positive environmental legacy by supporting research projects and investing in our own native woodland planting scheme, which not only deliver biodiversity benefits, but will help to make MacArthur Green, and the services we deliver, carbon negative.

MacArthur Green specialises in the provision of ornithological, ecological, hydrological, peat and fisheries consultancy services. The sectors we serve include transport, transmission and renewable energy and government. Our work covers the terrestrial and marine environment.

To help important projects succeed and deliver a positive environmental legacy, the values at the core of MacArthur Green are a belief in consistently delivering high quality service and advice, supporting each other in our day to day lives, ensuring that the health and safety of our team is critical to what we do and having a positive impact on the environment.

We require a motivated GIS Technician with a passion for the outdoors to join MacArthur Green's specialist team.

This post will include the following responsibilities:

- Responsibility for undertaking GIS work including survey preparation, Data entry and figure production.
- Database and Data management
- Feed in to and form a key part of our terrestrial and offshore teams.
- Assisting in ecological fieldwork when required.

The successful candidate will meet the following criteria:

- Degree or equivalent experience in GIS or related discipline.
- Knowledge and experience of using ESRI ArcGIS and other packages.
- Experience in a GIS role within a commercial environment.
- Strong interpersonal skills.
- A passion for the outdoors.
- A flexible and proactive approach to work.
- Time management skills.
- The ability to produce high quality Data and figures and deliver them to clients on time and to budget.

- Understanding of environmental impact assessment.
- Strong IT skill including MS word and excel.
- Valid driving licence.

This job will be based at MacArthur Green's office in Glasgow

Salary dependent on experience – range £18,000 to £23,000. Company pension contribution payable.

Please send a CV, detailing relevant skills and experience to judy@macarthurgreen.com. Applications should be submitted by **midday 25th January 2019**.

No recruitment consultants, please.

MacArthur Green is an equal opportunities employer.
